Associate Director of Public Works

POSITION(S) SUPERVISED

Maintenance Electrician/ Electrician Apprentice
Electrical Bluestake Technician

ESSENTIAL JOB FUNCTIONS

Meet performance standards established with the employee's supervisor.

Responsible for the performance and training of an electrician apprentice.

Job attendance is required, except for authorized leave. This position has been determined to be not eligible for remote work because all or a majority of the essential job duties must be performed onsite.

Perform master level electrician duties on all City facilities, streetlights and other City assets to assure proper operations. Work with Facilities division to monitor and maintain electrical services to assure safety and functionality.

Train, mentor, supervise, and assist maintenance workers in performing their job duties. Observe and actively participate in work zone safety procedures. Follow safety principles when operating vehicles and equipment to reduce/eliminate accidents and injury.

Assist in scheduling, rating applications, and interviewing positions supervised. Conduct performance evaluations of supervised employees in accordance with the human resources policies and procedures of the city.

Troubleshoot various types of electrical equipment including high and low voltage power supplies, motors, pumps, lighting, feeds and telemetry. Make appropriate repairs through obtaining necessary equipment and parts and installing same.

Determine demand and electrical needs to various operating environments, special City projects and events.

Provide electrical repair a variety of electrical components, motors and street lighting.

Check mechanical parts in circuit breakers, voltage regulators and transformers.

Manage electrical work order requests relating to building maintenance, City street lights, water pumps, sprinkler transformers and cross walks, providing safe and reliable services; assign daily work to Electrician Assistant.

Operate equipment as needed: backhoe, underground boring equipment, boom truck, trencher to perform necessary repair and system maintenance.

Order parts, keep inventory of electrical supplies, and understand blue stakes symbols and colors to provide timely repairs.

Set forms and pour concrete for streetlight bases. Read blueprints and inspect street lighting for appropriate bond release.

Assist in budgeting process and planning for future CIP projects.

Compensated on-call rotations as assigned. Must remain available for phone contact and respond to work site within one (1) hour of notification and be in compliance with the City's Drug & Alcohol policies.

Subject to uncompensated stand-by by rotation for a given event, such as a pending snowstorm event or response to a natural disaster. Must remain in compliance with the City's Drug & Alcohol policies.

Employee shall live no more than 30 miles from the South Jordan City border and have the ability to travel from their place of residence to the South Jordan City Public Works building in no more than 45 minutes time.

Perform other duties as assigned.
